

TACTICAL VIDEO WALL

Command and Control Display System

The HDT Tactical Video Wall (TVW) is a scalable, ultra-thin bezel display system for mobile operation centers. Created by setting RTOC Double-stack Auto Lifts together, it can create a single video wall that is as large as needed. Providing the ultimate in display flexibility, the HDT Tactical Video Wall can operate as independent, 1x2, double-stacked display systems for separation of classified and unclassified data or as a massive command and control wall. Input sources can be moved to any display in the wall.

The required video processor supports display resolutions up to 4K and a single image can be displayed across the entire wall.

KEY FEATURES

- High-resolution displays, up to 4K
- Scalable – from 1x2 displays to 4x2 video walls
- Up to 226+ inch diagonal
- Supported input devices include PCs / Macs, smart phones, broadcast receivers, surveillance feeds, tablets, DVD / Blu-Ray players
- Available colors: Black, Olive Drab and Tan
