

nRTOC DISPLAY

Mobile Command and Control

The HDT nano Rapid Tactical Operations Center (nRTOC) is an ultra-portable display system for mobile, front-line operations. This rugged, lightweight, ultra-portable single-case solution is the ideal platform for battle command software and incident response applications. The HDT nRTOC supports front and rear projection and can be set up as a single unit or as multiple displays positioned side-by-side to create a large-scale command and control wall.

The HDT nRTOC is one of our lightest systems, starting out at just 77 pounds and is available in screen sizes from 60 to 200 inches diagonally.

KEY FEATURES

- Rugged, lightweight and ultra-portable
- Short-throw projectors can be setup in front of or behind the screen
- Standard screen sizes range from 60 to 100 inches diagonally. Dual screen systems boast screen sizes from 120 to 200 inches diagonally.
- Supported input devices include PC / Mac computers, smart phones, broadcast receivers, surveillance feeds, tablets and DVD / Blu-Ray players
- Compatible accessories include interactive electronics and video distribution units (VDU) to expand display capabilities by supporting multiple inputs and quadview images
